REPORT ON OPERATIONS 1109 - 18 Feb 70 1109 - 1
REPORT ON OPERATIONS 11A 6. reported there was no change to the launch schedule. 11D CORONA 1109 - 18 Feb 70 11A 7. In discussion mission 1108, noted that the 15% cloud cover encountered on the first bucket was about the best weather ever experienced on a KH-4 mission. Regarding the second bucket, he noted that after the twelfth day there was 41% of the film remaining and that the NRO was considering keeping the mission up for 19 days as originally planned. 12 COLOR PRIORITIES - MISSION 1108 13 In addressing color requirements for mission 1108, stated that it was DIA's view that ICRS should not upset the priorities established at the beginning of the mission and would prefer that it be programmed as if it was black and white. The CIA member noted that while he did not disagree with this philosophy, he was of the opinion that ICRS should review the targets that would be accessed so that a preference could be stated. 12 Since the NRO had not decided on the duration of the mission or at what point color film would be available it was decided that a special meeting to address color requirements would be held at NRO at 10:00,
CORONA The discussion mission 1108, poted that the 15% cloud cover encountered on the first bucket was about the best weather ever experienced on a KH-4 mission. Regarding the second bucket, he noted that after the twelfth day there was 41% of the film remaining and that the NRO was considering keeping the mission up for 19 days as originally planned. COLOR PRIORITIES - MISSION 1108 8. In addressing color requirements for mission 1108, stated that it was DIA's view that ICRS should not upset the priorities established at the beginning of the mission and would prefer that it be programmed as if it was black and white. The CIA member noted that while he did not disagree with this philosophy, he was of the opinion that ICRS should review the targets that would be accessed so that a preference could be stated. 9. Since the NRO had not decided on the duration of the mission or at what point color film would be available it was decided that a special meeting to address color requirements would be held at NRO at 10:00,

25X1A 25X1A 25X1A	. ICRS-M-35	25X1A
1	a). Assign a priority 1 to the CIA targets submitted at last weeks meeting along with some DIA nominations	
	b). Lower existing priority 1's to priority 2	
ĺ	c). Retain existing priority 2's at that level	
25X1A	The CIA member stated that he could not agree to this proposal since it leaves the same gap between ICRS and the operator as was discussed at the last meeting. As an alternative, recommended that the list be abolished if there are not planned missions. If missions are proposed ICRS would provide guidance at that time. The Army, Navy and Air Force members concurred with the DIA proposal while the NSA member abstained.	
25X1A	ll. Chairman noted that the subcommittee had reached an impasse on this matter. stated that as Chairman he could take two approaches, namely, he could distribute a revised list with a footnote indicating CIA's dissent or he could forward the problem to the Chairman, COMIREX.	
	TARGET UPDATES	
	The weekly transaction sheets (pages 732-747, dated 24 November 1969, and pages 748-759, dated 1 December 1969, and pages 760-772, dated 8 December 1969) containing the following target action were approved:	
	174 Additions 105 Changes 46 Deletions 12 Inactivates 10 Reactivates 2 Pending
